S2 Music Technology

1 **Excellent**	**I can confidently collect and set up my equipment and operate the software Cubase.** My skills include creating, naming and setting project folders, importing audio into named and coloured tracks, using the scissor tool to cut appropriate sections from chosen audio and sound effects, using appropriate fade ins/outs to create an effective final product and export my project into an mp3/wav file.
2 **Secure**	**I can collect and set up my equipment and operate the software Cubase with some confidence.** My skills include creating, naming and setting project folders, importing audio into named and coloured tracks, using the scissor tool to cut appropriate sections from chosen audio and sound effects and using appropriate fade ins/outs to create an effective final product.
3 **Mainly Accurate**	**I can collect and set up my equipment and operate the software Cubase with some support.** My skills include creating, naming and setting project folders, importing audio into named and coloured tracks and using the scissor tool to cut appropriate sections from chosen audio and sound effects.
4 **Inconsistent**	**I can collect and set up my equipment and operate the software Cubase with support.** My skills include creating, naming and setting project folders, importing audio into named and coloured tracks and using the scissor tool to cut appropriate sections from chosen audio and sound effects.
5 **Requires Support**	**I am finding the skills of collecting and setting up my equipment and operating Cubase challenging.** I could watch the tutorial videos to familiarise myself with the setting up and operation of the software Cubase.
